FALL / WINTER 2024 CATALOG

Let us take you on a moveable feast.

Travel has always been a source of inspiration for our tabletop collections. A recent trip to incredible Egypt where I got to witness the last remaining wonder of the ancient world, the Pyramids of Giza, and the motifs that have long been a fountain of ideas for designers the world over got me excited when it came time to create our Fall 2024 collection.

Egyptian jewels with stones like turquoise, lapis lazuli and other semi-precious stones, and icons like scarabs make their way into our beaded placemats and charming napkin rings, turning dining moments into entertaining sojourns.

As we enter the cold weather months, the country and the mountains beckon. Should you head for those destinations, we have collections that will transform your dining tables into unforgettable experiences whether you are celebrating a traditional Thanksgiving dinner or an après ski tête-à-tête or a family reunion with all the hallmarks of a classic Christmas.

With the biggest entertaining season of the year upon us, it would be our pleasure to help you create experiences and memories around the table.
